

ONE **TECHNOLOGY.**
TWO **WORLDS.**
UNPRECEDENTED **RESULTS.**

unigelTM

is Sofgen CDMO®'s next-generation softgel platform that combines liquid and solid phases in a single dose for pharmaceutical products and specialized supplements.

DEVELOPED WITH EXPERTISE MANUFACTURED WITH EXCELLENCE

What is Unigel™?

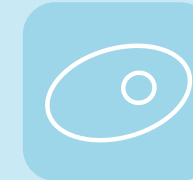

Unigel™ is a proprietary encapsulation technology developed by Sofgen CDMO® that **combines liquid and solid phase ingredients within a single softgel**. The result: complete formulations, greater patient or consumer adherence, and a visually differentiated final product.

Versatile by nature, **Unigel™ adapts to different segments, therapeutic categories, and consumer profiles** always backed by the technical rigor and manufacturing capacity of a world-class CDMO.

UNIVERSAL BENEFITS:

Formulation Flexibility Compatible with a **wide range of pharmaceutical, nutraceutical, and botanical ingredients**

Smart single dose
Multiple actives in a single capsule, simplifying treatment or supplementation routines

Full-service CDMO partner
Development, scale-up, and manufacturing **under one roof**

Brand differentiation An **innovative, visually striking format** that stands out in the market

unigel™

FOR THE PHARMACEUTICAL MARKET

INNOVATION WITH REGULATORY RIGOR

COMPLEXITY WITH DOSING SIMPLICITY

In the development of Rx and OTC products, every detail matters: **stability, bioavailability, treatment adherence, and competitive differentiation.** Unigel™ technology was designed to meet these challenges with an elegant, technically robust solution.

With Unigel™, pharmaceutical laboratories can develop fixed-dose combination formulations, **reducing the patient's pill burden and expanding the product's therapeutic value.**

KEY HIGHLIGHTS:

Greater therapeutic adherence

Fewer capsules, fewer errors, better clinical outcomes

Unprecedented pharmaceutical combinations

Actives that are incompatible in traditional solid dosage forms can coexist in Unigel™

Regulatory and commercial differentiation

Patented technology that protects and adds market value to the product

Specialized technical support

Sofgen CDMO's R&D team supports every stage, from concept to regulatory filing

FORMULATION POSSIBILITIES WITH **UNIGEL™**

UNIGEL™ FOR SPECIALIZED SUPPLEMENTS

Consumers want more, Unigel™ delivers it all in one dose.

The supplements market is undergoing a moment of transformation. **Consumers are better informed, more demanding, and looking for products that deliver real benefits in a practical, convenient way.** Unigel™ is the answer for brands that want to lead this evolution.

With the ability to combine multiple nutrients in a single sophisticated capsule, **Unigel™ makes it possible to create high-value products with differentiated visual appeal and a complete nutritional proposition** ready to win space in an increasingly competitive market.

KEY HIGHLIGHTS:

The Magic Pill Product

The complete supplement today's consumer is looking for

Differentiated Portfolio

Move beyond commoditization and offer something your competitors don't have

Superior Consumer Experience

An **innovative format** that drives engagement and loyalty

Flexibility for vegans and vegetarians

Animal or plant-based gelatin, **tailored to your brand's positioning**

COMBINE THE BEST OF NUTRITION IN A SINGLE CAPSULE
